

STELLITE

ENERGY SERVICES LIMITED

Company Profile 2026

An indigenous Nigerian industrial services company delivering energy, marine, dredging and logistics solutions across the West African energy value chain — under one accountable partner.

Marine & Offshore

Dredging & Reclamation

Energy & Logistics

Victoria Island, Lagos | Operations across Nigerian waterways, offshore & onshore

An Integrated **Service Offering**

5 connected service lines spanning the marine, dredging, energy and logistics value chain — delivered with execution discipline that moves critical projects forward.

01

Marine Logistics

Platform supply vessels, storage & tanker barges, and tugboats serving both shallow-water and deepwater oil and gas operations.

02

Dredging Services

Capital & maintenance dredging, land reclamation, channel deepening and site preparation for installations.

03

Land Transportation

Heavy-equipment haulage, container movement and nationwide road logistics to ports, yards and FTZs.

04

Petroleum & LPG Supply

Reliable supply of AGO, PMS, ATK aviation fuel to FBOs and LPG to commercial, industrial and public-sector clients.

05

Oil & Gas Equipment & Procurement

OEM sourcing of rigs, drilling components, artificial-lift systems, field tools, spares and consumables.

SERVICE LINES 01 & 02 · ON THE WATER

Marine, Offshore & Dredging

Platform Supply Vessel

Dredger

AL-MUGHNI 2601 · Cutter Head

AL-MUGHNI 2601 Dredger

Offshore Support

PSV/Storage & tanker barges and tugboats deployed across the Nigerian continental shelf.

Fleet Readiness

Integrated fleet management with rapid mobilisation for shallow and deepwater operations.

Dredging & Reclamation

Capital and maintenance dredging, channel works and land reclamation for energy installations.

SERVICE LINES 03 • 04 • 05

Logistics & Energy Supply

From cargo on the road to fuel at the gate and equipment on the field — dependable supply across the downstream and procurement chain.

Land Transportation & Logistics

Heavy-equipment haulage and low-beds for oversized cargo, container movement to and from ports, and delivery to oil & gas sites, yards and Free Trade Zones.

Petroleum Products & LPG Supply

AGO and PMS for power generation, fleet and retail, ATK/Jet-A1 (aviation fuel) for operators and FBOs, and LPG for residential, commercial and industrial use.

Oil & Gas Equipment Procurement

OEM sourcing of rigs and drilling components, artificial-lift and pump-enhancement systems, field operations hardware, spare parts and consumables.

Nationwide road & haulage network

OUR PEOPLE

The Team Behind Every Delivery

Stellite is built on people who treat each project as a personal commitment. Our team pairs deep technical know-how across marine, dredging and energy operations with the judgement, discipline and responsiveness that complex projects demand — moving quickly when it matters and standing behind every outcome.

Experienced & Multidisciplinary

Engineers, marine specialists, logisticians and commercial professionals who know the Nigerian energy ecosystem inside out.

Relationship-Driven

Trusted relationships across operators, regulators and partners — built patiently and honoured consistently.

Safety & Professionalism First

A disciplined HSE culture where every interaction reflects the quality and integrity of our work.

Proudly African Talent

Local capability and Nigerian Content compliance that we treat as both our identity and our competitive edge.

“We operate as one unified force — outcomes are the measure of our work.”

— Akudo Nweke, MD/CEO
